

Sewer Information

All homes within Ventura are subject to a sewer consumption charge from the Clear Lake Sanitary District (CLSD). The bill comes once a month and is printed on a small postcard with green ink. Please notify the CLSD at 641.357.2019 when you are initiating new service.

There are 79 homes in Ventura that are directly hooked into the Clear Lake Sanitary District sewer main. Those homes are not charged a sewer fee by the City of Ventura. However, these homes pay an additional maintenance fee, along with the regular consumption fee to the CLSD.

Sewer maintenance for those homes hooked into a City of Ventura lateral are billed on a small postcard with blue ink every month.

Sewer is billed at a rate of \$3.50 per thousand gallons of usage, based on the gallons used for water consumption. The minimum service charge shall be no less than \$17.50 per month, which is necessary for maintaining and repairing the City's sanitary sewer collection system.

For more information please call our City Hall at 641.829.3861.
